Some restrictions and exclusions may apply. See a BookStores associate for full details.
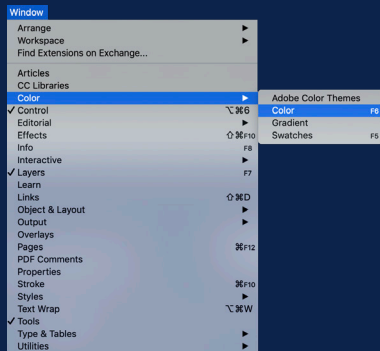

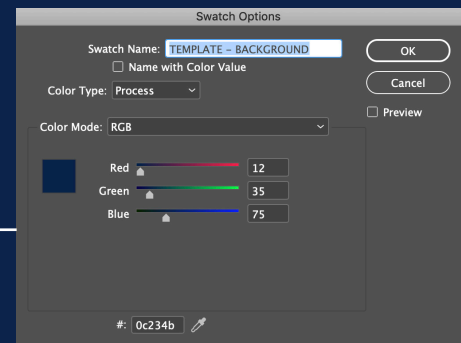

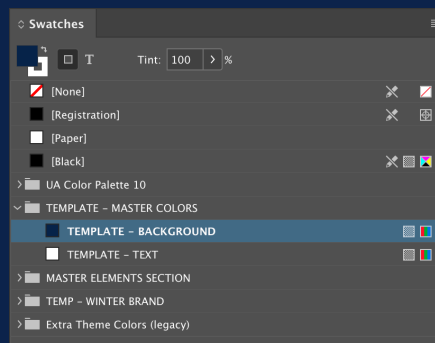

To edit the color of this template, please change the global color swatch for each color in the design.

To view this screen, from the top navigation select:
Window > Color > Swatches

Once there, double click a color to edit its value.

Please Note: Editing a swatches value changes all elements using that color swatch across the entire document.

For non-global changes, it is best practice to use one of the other color swatch libraries, such as "UA Color Palette 10" -or- create a new swatch.

TEMP–8.5x11 Global Color Template

TEMP–11x17 Global Color Template

TEMP–22x28 Global Color Template

TEMP–1920x1080 Global Color Template

Currently, only a few templates support global color. The color of the logo does not currently support this feature and will need to be set manually by replacing the file.

To make edits to Master Page elements on Pages in your document, press **command + shift** while clicking the element you wish to change.

GETTING STARTED

To begin, create a new page and drag a template onto a page to assign a style or size. Once you've created a new page, make sure to delete this page from your document and save it as a new file to begin working.

BRAND ELEMENTS

Click on the Master Page titled, "ELEM-MASTER ELEMENTS" for some pre-made styles for common elements.
